## **DETAILED ACTION**

### ***Reasons For Allowance***

1. The following is an examiner's statement of reasons for allowance:
  - The primary reason for allowance of claims 1, 19, and 38 is due to the inclusions of the limitation which states "the heater element configured as a suspended beam extending between opposing sides of the bubble forming chamber for thermal contact with a bubble forming liquid" in combination with the limitation which states "the heater element is configured to nucleate the gas bubble at a point that is laterally offset from the inlet." These limitations in combination and in independent form overcome the prior art.
  - The reason for allowance of claims 3-18, 21-37, and 40-54 is due to their dependency on claims 1, 19, and 38, which overcome the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
